- Here is a bull that will sire the keeping kind replacement females, his massive dam served in our herd, and recently sold in our production sale to a purebred breeder in California.
- His breed leading sire, major AI bull, **SAV Ten Speed 3022**, is a well-proven, industry-leading curve bender that sires easy-feeding, growthy cattle that perform at all stages.
- His dam, **SAV Emblynette 3530**, served as a donor for us, a massive made cow, she is pictured on our website. She was maternal sister to the lot 1 bulls sold in the 2006, 2007, and 2008 SAV Sales.
