Dam Erica of Ellston G366

Sire Basin Excitement

Full Sister Erica of Elston M38

- **Ellston Scheckel B97** is a direct daughter of **Erica of Ellston G366**, who is one of the most incredible females ever bred in the 90 year history of Hoover Angus. Ten of her sons have been sale features at Hoover Angus. **G366** produced the lot #1 and #2 bulls in the 2017 Production Sale, selling for \$14,500 and \$9,500. **G366** scanned a 131 IMF ratio, and a 115 Ribeye ratio individually.
- **Ellston Scheckel B97** is also a full sister to **Erica of Ellston M38**, who was Hoover Angus's #1 weaning weight heifer of her calf crop. M38's first son was the lot #1 bull in the 2016 Hoover auction, selling for \$14,500. M38's heifer calf easily took #1 weaning weight calf of the 2017 crop, at 872 pounds. She was actually the heaviest weaning-weight heifer ever in the 90-year history of Hoover Angus. M38 is also the #1 indexing cow in the entire Hoover herd.
- **Ellston Scheckel B97's** sire is the famous **Basin Excitement**, who is a big time spread bull, from birth weight to weaning weight. His progeny have shined in all herds he was used. He is a true calving ease bull, who transmits growth and performance second to none.
- We purchased **B97** as an embryo at the National Wester Foundation Female sale in Denver, Colorado.
- **Ellston Scheckel B97** ranks herself, in the top 3% for weaning and yearling weight EPD's, top 10% dollar beef, and top 1% dollar weaning and feedlot value. Her 2 natural progeny have averaged a weaning ratio of 107 in the J.J. Scheckel herd. Her 2017 natural calf ranked #3 for weaning weight ratio.
- **B97's** two natural daughters, **Ellston Scheckel D128**, and **Ellston Scheckel E229**, both continue to serve in the Scheckel herd.
- Hoover Angus talks a lot about docility traits, and without question, you can absolutely see this first hand, as **B97** was always the first calf to come up to you in a pen of 100. It was unreal how docile she was, compared to her herd mates.
- Ellston Scheckel B97's natural 2019 bull calf, G650, claimed the #2 Weaning Weight day average calf from our 2019 natural calf crop, at 3.80 pounds per day, to ratio 111.
