- Here is a **Resource** son, ranked by EPD in the top 15% of the industry for both weaning and yearling weight, that will add width and depth to his calves, packed full of muscle. He is moderate birth weight as well.
- His sire, the now-deceased **SAV Resource 1441**, besides being a personal favorite of ours, was one of the most iconic bulls in the breed; **Resource** was the most popular sire in the Gexex line-up due to his ability to sire growth, carcass merit and maternal ability in a desirable package.
- Resource brings to the table the basics of efficiency and natural fleshing ability with thickness, muscle, masculinity, superb structure, feet quality and authentic breed character.
- Resource sons have unprecedented performance and industry appeal, while his daughters are making superb brood cows with high quality udders and abundant milk.
- His dam, **Blackcap May Scheckel C27**, was a beautiful cow bred in our program that possessed the perfect udder.

**THESE BULLS WILL IMPROVE YOUR CALF CROP, THROUGH ADDED POUNDS AT WEANING, CARCASS TRAITS, AND MATERNAL VALUE ON HEIFERS RETAINED.**
