- This bull had a light actual birthweight of 67 pounds. He scanned a big 14.5 ribeye at ultrasound, where he ranks in the top 1% of the industry on Ribeye EPD. His Weaning EPD is top 3% of the industry. He will sire some feeder cattle in demand.
- His sire, **Quaker Hill Rampage**, is a well-proven, top of the breed bull for performance and carcass. He has been one of the most popular AI bulls for the past several seasons.
- His dam, **SAV Blackcap May 4553**, served as a donor in our herd, and recently sold in our December auction, for \$18,000. She is pictured on our website, described as a model Angus cow, she is direct daughter, of the 9 million dollar producing, all time leading Angus cow, **SAV Blackcap May 4136**.
