- Here is your 2024 Midland #1 Champion in Efficiency of Gain, with a 126 Efficiency Ratio or 26 percent higher than the test average. He beat every single animal in group 1 or group 2, of every breed in this test.
- Besides being efficiency champion, this bull earned a huge 114 Average Daily Gain Ratio or 14% higher than the test average.
- 108 Midland Bull Test Ratio.
- Excellent feet and legs.
- Montana L107's sire, SAV Allegiance 6277, is our 3-time champion, bull test producing, herd bull who has sired bulls that have won Midland in Montana, Iowa Cattlemen's Test, and Purdue University tests in Indiana. He is a massive muscled, rock hard, bull with a huge crest and moderate 5.5 frame size. He weaned at 997 pounds to ratio 109 against the stiffest in herd competition in the country. He has been making some proven great females in our herd.
- Montana L107's dam, Oneills Delia 785, is a heavy boned, large footed power cow in our herd, produced by Iowa breeder Jim Oneill. She displays a lot of length, frame, and depth of body. She is a maternal sister to old time famous, Iowa power bull, Oneills Expedition.

Sire, SAV Lineage 9576

- A good doing bull with excellent genetics to build a herd around.
- Bruiser L104's sire, SAV Lineage 9576, is a J.J. Scheckel herd sire, and a full flush brother to the \$250,000 selling AI bull SAV Bloodline 9578, and also a maternal brother to the \$75,000 selling AI bull SAV Ajax 8885. SAV Lineage 9576 is loaded with muscle and length, he weaned at 892 pounds, 228 pounds above the breed average, and posted a 1,400 pound yearling weight. He scanned an amazing 164 ratio for marbling at carcass ultrasound.
- Bruiser L104's dam, Blackcap May Scheckel H718, is a beautiful young fertile cow in our herd with top 3% in the angus breed maternal index EPD. She scanned herself a 9.83 percent IMF or prime carcass with a 14.1" ribeye.

Paternal Grand Dam, S AV Emblynette 2369

Sire, SAV Resource 1441

- This bull is maternal brother to the Champion Efficiency Bull, J.J. Scheckel Montana L107.
- This bull also placed in the Midland Top 10 in Efficiency of Gain, with a 114 Efficiency Ratio or 14 percent higher than the test average.
- 106 Midland Average Daily Gain Ratio.
- 103 Midland Bull Test Ratio.
- He recorded a 808 pound weaning weight.
- Hay Maker L105's sire, SAV Resource 1441, is one of our all time favorite bulls ever. Resource injects muscle and mass into his offspring like no other, he improved feet and fleshing ability, he sires moderate framed cattle that have high weaning weights and feedlot performance. We have used him extensively in our program.
- Hay Maker L105's dam, Oneills Delia 785, is a heavy boned, large footed power cow in our herd, produced by Iowa breeder Jim Oneill. She displays a lot of length, frame, and depth of body. Delia 785 produced the world champion efficiency of gain bull at Midland in 2024. She is a maternal sister to old time, famous Iowa power bull Oneills Expedition.
