		└ Peak Dot Fame 2N
		└ HF Erica 46P

- **Blairs International Law 510M**, sold to J.J. Scheckel as Lot 1 of the 2026 Blairs Pursuit of Excellence Sale in Canada.
- A **McCumber La Joya 098** son, out of the world famous, **Bar-E-L Erica 74A** cow. International Law 510M is an absolute tank of an individual with an elite pedigree full of proven functional cow makers as superior as anything in the world. After seeing his sire La Joya in person at A.I. Stud, we were blown away by the base width, depth, and shear length he possessed with a perfect foot. He may be as massive of a super-proven, low-birthweight bull as anything in the world, a hard combination to make together. We feel International Law 510M has all the attributes to become a legend in his own right and carry those same traits forward with the added maternal from one of the greatest cows the breed has ever identified.
- His sire, **McCumber La Joya 098**, is a big time calving ease bull, with a rare combination of absolute massive presence. He is wide, deep, long, and as thick as you can make one, he stands on a perfect foot.
- His dam, **Bar-E-L Erica 74A**, is the \$525,000 selling world-famous cow, and said by some to be the most elite Angus female in existence. She was a grand champion female herself at the Canadian Agibition, and then had daughters go on and win also. She has several famous sons working in A.I. Studs. She is a model Angus cow with a perfect udder.

Sire, McCumber La Joya 098

Dam, Bar-E-L Erica 74A
