 EA Queen 8070 — Koupals Elba 187
 — EA Queen 2350 — G V F Forward 0141
 — E A Queen 0313

Sire, Ellingson Badlands 0285

Dam, EA Queen 8070

- Ellingson Badlands 4740, is one of three flush brothers we bought at Ellingson's, all sons from another one of the greatest cows in the Angus Breed and Ellingson Angus history, EA Queen 8070, a Juneau 797 daughter that sold for \$120,000, and also known as the dam of one of the most impactful A.I. sires in recent time, Ellingson Prolific, who would be a maternal brother to our Badlands 4740.
- His sire, Ellingson Badlands 0285, sold for \$80,000 in 2021 and is known for proven calving ease, center of body mass, base width, and is loaded with proven and lasting cow making power.
- Badlands 4740 himself earned a 205 day weaning weight of 783 pounds. He is a bull that will also transmit that superior maternal power and low birthweight in a moderate frame package, coupled with some of the best proven foot and udder quality traits in the breed.

Maternal Brother, Ellingson Prolific

Maternal Grandsire, Koupal Juneau 797
